Contents

1 Basic functions

1.1 Itemize

- Run 'prd_thesis' to compile the whole document.

- Run a component file (e.g. 'c_1_section1.tex') to only compile that component which can save a lot of compile time. Do not forget to include \environment[] in your components to get the right document formatting.

1.2 Tables

Table 1 Example table

head1	head2
One	*two*
One	*two*

This is a reference to table 1.

2 Formulas

$$\frac{dX}{dt} = k \cdot A \cdot (X_{GG} - X) \tag{1.a}$$

$$\frac{dc}{dt} = -\frac{v_0}{\varepsilon} \cdot \frac{dc}{dx} + \frac{1}{\varepsilon} \cdot \frac{dX}{dt} \tag{1.b}$$

This is a reference to equation 1.b.

Here I am citing [1], and here [2].

This document is not an MWE but it might represent the BP.

Appendix A Bibliography

[1]   H. Hagen, Who knows nothing?, *MyJournal* **1** 123–126 (2013).
